[INTERVIEWER: PLEASE IDENTIFY YOURSELF BY NAME AND ORGANISATION AND THEN READ THE FOLLOWING STATEMENT EXACTLY AS WRITTEN]

CONSENT STATEMENT

Approximately six years ago, we interviewed your household for a research study. We would like to update the information and interview you and some members of your household about your health and family life.

This study is conducted by the National Council of Applied Economic Research (NCAER), New Delhi and the University of Maryland, College Park, USA.

We will also ask for contact information from you and other family members so we can update this information again in a few years.

We are asking many people all over the country to participate in this same interview.

The interview is voluntary. During our visit, we would like to ask you about various aspects of your life including work, finances, education, health and family. In addition, we may ask to measure the height and weight of women and children in the household and administer a short reading, writing and arithmetic exercise to some children.

We may also ask to speak to young people in your household about similar issues.

If you choose not to reply to any of the questions in this questionnaire, you are free to do so.

If you decide to answer some or all of the questions, we will use the information you give us only for the purposes of research and publication.

People will be able to learn about the health and well-being of the people of India, but not what you personally said.

Your name and other personal information will be retained by NCAER and University of Maryland in a confidential manner.

For information about the study please contact Dr. Sonalde Desai
at NCAER, 11, Indraprastha Estate, New Delhi 110 002. Tel (011) 23379861. Email: ihdsinfo@gmail.com
